	<input checked="" type="checkbox"/> Data Quality	<input type="checkbox"/> System selection and implementation	
The Challenge	The Client required improved Management Information for its Property lending portfolio.		
Approach and Solution	avantage designed and delivered a solution working alongside the larger and medium commercial property teams using a rapid application design approach. Workshops held on a weekly basis discussed issues raised and provided decisions to enable timely delivery of the solution.		
Results and Benefits	A platform was created for use to improve data quality and further capture of information required for risk management and Management Information purposes.		
Software used	MS Access, VBA and Excel
